**Holly Hill**   
Children's Services

**2015** ANNUAL  
REPORT

Holly Hill Children's Services strengthens the lives of children through its programs and services focused on the child.

# WELCOME TO HOLLY HILL

From the Executive Director  
and Board Chair

## *Dear Friends of Holly Hill,*

We would like to personally thank our board members, staff and all the volunteers and contributors who have given their time, talents and treasures for the benefit of Holly Hill Children's Services. This year was definitely a year of transition for Holly Hill. As the needs of the community that we serve continue to change and increase in new ways, so too, must Holly Hill change and grow to meet those needs.

The first change came because of the increase in foster care providers in our area. We came to a very difficult decision to eliminate our own foster care program. On the other hand, we have been continuing to expand our other community-based services. We are providing even more therapy to the children of the Northern Kentucky region and their parents, their grandparents or guardians. We have also expanded to providing school-based therapy services in recognizing needs and providing mental and behavioral health services for the students in our local schools. In addition, mental health first aid is being offered to teachers, counselors and support staff in schools as well as in other community settings. In our efforts to address the ever-changing needs of the community, we continue to explore many other services as demands increase. Another pressing need for the Northern Kentucky Community is providing services for those children and families impacted by substance use and abuse. We are currently training staff to work in the field of substance use and abuse. To further provide this service, our agency has been licensed by the state to offer these services.

We are also challenged with new internal functions. We have had to change our billing process, our record keeping, and our staff certification requirements as Medicaid and state regulations require. Because these regulations are in a constant state of flux, this has led to an increased demand on staffing and funding to meet our community needs.

In spite of these difficult times, our main focus continues to be how to best service the children of our area. Events such as Marty's Party and the Holly Hill Annual Golf Outing continue to be our largest fundraisers, but we will need to explore other creative ways to raise the capital needed as state and Medicaid funding dwindle. This year, we sponsored an MLB All Star tickets raffle at Barley-corn's to create awareness about Holly Hill and to earn funds for our growing needs. We are especially grateful to the Clyde N. Day Foundation for supporting this effort.

In order to increase our visibility and to sustain donations to Holly Hill, we are updating our website and are currently developing a promotional video to be released in January 2016 detailing who we are and what we do. We are aware of the importance of keeping the Holly Hill name in the forefront so that we can continue to do the work of helping the children of Northern Kentucky and their families.

We are very proud to be associated with such a wonderful organization. It has been a privilege working with the individuals dedicated to the mission of Holly Hill. We thank all of you who support Holly Hill Children's Services and ask your continued help in the coming year.

William Hagedorn  
Chair of the Board of Directors

Connie Wong  
Executive Director

## OUR VISION

Holly Hill Children's Services embraces a changing service environment, meeting the present needs of children in our community and preparing to meet the needs of the children we have yet to serve.

# OUR PROGRAMS

Taylor's Story

## RESIDENTIAL TREATMENT

The Residential Treatment program provides a safe, structured, residential setting for adolescent girls ages 11 to 18. The girls have severe emotional and behavioral issues, many as a result of abuse and/or neglect. The program is currently the only one in Northern Kentucky solely addressing the needs of this demographic. At our long-term treatment facility, they receive intensive individual and group therapy, family counseling, public school and on-site transitional classroom services, psychiatric consultation and assessment, and highly structured 24-hour supervised group living. They are also involved in therapeutic educational, social, and recreational activities. The girls reside on campus for an average of 6-9 months.

.....  
**SERVED 40 INDIVIDUALS IN FISCAL 2015,  
PROVIDING SUPPORT TO A TOTAL OF 92 PEOPLE.**

OLIVE TREE GROUP PROVIDES A CRAFT ACTIVITY FOR THE RESIDENTS ONCE A MONTH, AND HAVE BEEN DOING SO FOR SEVERAL YEARS.

## FOSTER CARE/ADOPTION

Holly Hill's Foster Care program is a safe place for children to be when they cannot live with their parent or relative. Children enter our program because of neglect, abuse, a family crisis, or the child's acting out at home. Our foster families provide a therapeutic environment in the context of a nurturing family home. We provide our foster families with around the clock support, monthly support and training, respite care, and a dedicated support team. We work with social workers, the courts, teachers, therapist, and the child's biological family to ensure that the child's needs are met. In some case foster families are asked to provide permanent foster care or to adopt the child in their care. It was determined that this program would end on May 1, 2015.

.....  
**SERVED 15 INDIVIDUALS IN FISCAL 2015,  
PROVIDING SUPPORT TO A TOTAL OF 68 PEOPLE.**

APPROXIMATELY 7,732 DAYS OF FOSTER CARE PROVIDED TO 21 CHILDREN WERE PROVIDED ANNUAL-

Taylor entered the Residential Treatment program after being hospitalized because of a suicide attempt. She reported feeling worried about her future and her place within her family. Taylor had been hanging out with a negative peer group using drugs and alcohol and skipping school. Through therapy, medication management, and staff support, Taylor learned to manage her anxiety through difficult and extended episodes. Taylor was able to catch up in school, earning the credits required to get her on track for graduation the following year. Taylor and her mother were able to address and resolve painful issues through family therapy. They learned to support and accept each other's strengths and needs. Taylor returned to her mother's home at discharge and resumed community services and school, working toward her goal of graduation.

# OUR PROGRAMS

Jim's Story

## CASE MANAGEMENT

Children and youth, up to age 21, receive the support needed to stabilize their home environments and preserve the family unit. Case managers gather and relay clinical information to secure funding for needed services for children who are at risk of being institutionalized or hospitalized due to emotional difficulties. The team accesses services, such as therapy, medication monitoring, evaluation and assessments, to help children succeed in their homes, schools and communities. Case Managers are resourceful at accessing and incorporation natural community resourced during services that can continue to provide support to the children and their families following discharge.

.....

**SERVED 217 INDIVIDUALS IN FISCAL 2015,  
PROVIDING SUPPORT TO A TOTAL OF 786 PEOPLE.**

WITH AN AVERAGE OF 3 HOURS PER MONTH,  
PER CASE, APPROXIMATELY 3,999 HOURS OF SERVICE  
ARE PROVIDED ANNUALLY.

## SUPERVISED VISITATION

This program provides an opportunity for visiting parents to maintain contact with their children in a positive, safe and neutral setting. Most of the visiting parties are court ordered to visitation while decisions regarding custody, visitation schedules and safety are being considered by the courts. This program allows parents safe access to their children when unsupervised contact with the parent is not in the child's best interest. Visitation services ensures safety of children and parents, stabilizes families during a crisis, reduces the risks of domestic violence and promotes healthy parent and child interactions.

.....

**SERVED 78 INDIVIDUALS IN FISCAL 2015,  
PROVIDING SUPPORT TO A TOTAL OF 334 PEOPLE.**

THE VISITATION PROGRAM CONTINUES TO MEET  
A NEED IN THE COMMUNITY. FEEDBACK OF THE  
PROGRAM CONTINUES TO BE POSITIVE, EVEN WHEN IT  
SERVES A VERY CHALLENGING POPULATION WHO ARE  
OFTEN MENTALLY ILL, ADDICTED AND ACCUSED OF

Jim had admittedly made some pretty poor life choices that negatively affected his two sons. When he first came in for his intake for Supervised Visitation, he was afraid his boys wouldn't even want to see him. The older son expressed that he was apprehensive about coming for visits but said he would give it a try. The first visit was rough with the older son making some angry statement to his Dad. The residential parent was informed about the visit and was asked to talk to the older son about making the visits more positive. For the next few visits things began to slowly change for the good. Jim never missed a visit and this showed his sons that he was serious about working through their issues. At the end of each visit, Jim would tell his boys he loved them, and would get a handshake in response. At the end of the last visit prior to court, Jim said he loved his sons, but instead of a handshake, both sons replied with "I love you too."

# OUR PROGRAMS

Clare's Story

## COMMUNITY SUPPORT ASSOCIATE

The Community Support Associate (CSA) is a Medicaid program, which serves children up to age 21 who have complex behavioral health care needs and are at risk of institutionalization due to mental health problems. This is a voluntary service, which is client-focused. The goal of CSA is to provide "one-on-one" therapeutic interactions with the child in the community and in their home to help stabilize their behavior while emphasizing personal growth and development. The CSA worker works on identified goals and objectives outlined by the therapist. The CSA assists the child in developing communication skills, social skills and behavioral skills introducing them to the community in ways that allow them to learn how to interact appropriately within their environment.

.....

**SERVED 11 INDIVIDUALS IN FISCAL 2015,  
PROVIDING SUPPORT TO A TOTAL OF 33 PEOPLE.**

FORMERLY CALLED THERAPEUTIC CHILD SUPPORT

CSA IS A SOUGHT AFTER PROGRAM AND IS  
HIGHLY EFFECTIVE.

## THERAPY SERVICES

Therapy is an integral part of the community services provided Holly Hill. Our therapists provide a wraparound treatment model for children and their families. At the family's request, the behavioral health professional works in conjunction with a Case Manager and a Community Support Associate to identify strengths and needs of the child and family. These services improve relationships and overall functioning of the child in the home, school, and community. Therapists offer either in-home or office therapy to help stabilize the child's behavior while emphasizing personal growth and development. The in-home treatment service is seen predominately as more effective than the office since the family is more engaged in the child's treatment. Holly Hill has started to offer school-based therapy service.

.....

**SERVED 228 INDIVIDUALS IN FISCAL 2015,  
PROVIDING SUPPORT TO A TOTAL OF 798 PEOPLE.**

MENTAL HEALTH FIRST AID FOR YOUTH TRAINING WAS CONDUCTED AT BOTH SITES FOR OUR STAFF. THIS TRAINING WAS ALSO OFFERED TO THE COMMUNITY IN AN EFFORT TO RAISE AWARENESS OF MENTAL HEALTH EMERGENCIES AND HOW TO RESPOND BOTH IN THE WORK SETTING AND IN THE COMMUNITY.

Clare is 10 years old and in an adoptive home. She had been meeting with a therapist in an office setting for over two years for her anxiety and ADHD. Clare's adoptive parents were rarely seen or involved in her therapy and felt frustrated. When the parents decided to make a change, they chose in-home care with a Case Manager and Therapist. Clare was able to engage in treatment in the environment where many of the triggers of her anxiety were present. Within months of treatment the family reported that they finally felt changes were being made by not only Clare but the entire family. Many of the problems she was experiencing with her school and community activities have all but disappeared. She is a much happier child as reported by her family. Her parents are much more confident in their parenting and services have gradually been reduced to every other week for therapy with a closing date in the very near future.

# PERFORMANCE RESULTS FOR FISCAL YEAR

2015

## RESIDENTIAL TREATMENT

- 74% of clients showed improvement on targeted behaviors after completing three months of treatment.
- 92% of clients were promoted to the next grade in school or equivalent.

## FOSTER CARE / ADOPTION

- 80% of clients remained in the same placement as originally placed when entering the program.
- 100% of clients in the foster care program aged 13 and older participated monthly in an independent living curriculum.
- 100% of adoptive clients showed an improvement of targeted behaviors following participation in the foster care program for over 180 days.

## CASE MANAGEMENT SERVICES

- 86% of clients did not move to a more restrictive setting upon discharge, following participation in Case Management services for 90+ days.
- 99% of clients/families reported their experiences with Holly Hill as helpful in addressing the needs of the client and family.
- 95% of the service recipients reported behaviors of concern have improved at the time of discharge, following participation in Case Management services for 180+ days.

## SUPERVISED VISITATION

- 97% of parents/guardians reported no increase in conflicts. With the structure of visitation, conflict is often reduced or at least stays the same.

- 93% satisfaction reported by both visiting parties and residential parties. Overall, parents from both sides reported satisfaction with the services. Several reported that they appreciated the neutral setting and professional staff while being treated with respect.

## COMMUNITY SUPPORT SERVICES

- 80% of clients experienced improvements or achievement in targeted behaviors.
- 93% reported satisfaction with services received.

## THERAPY SERVICES

- 95% of clients receiving services reported satisfaction with the therapist working with them. Most reported very positive relationships and attributed their success to their therapist.
- 100% of parents/guardians who have children receiving individual treatment services for longer than 60 days report satisfaction with services received.

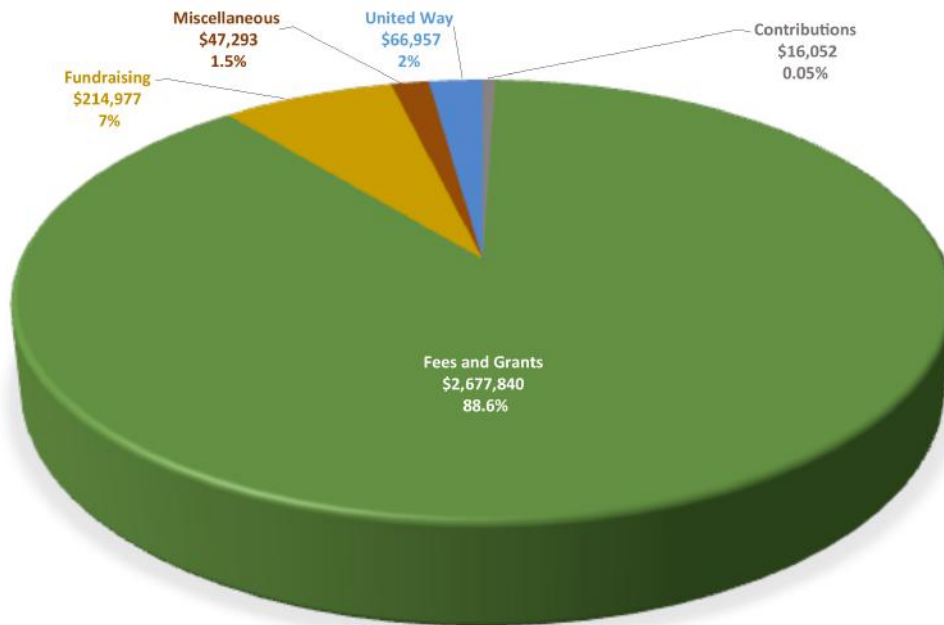

## NEWS AND NOTES

- In February 2015, Holly Hill implemented an electronic health records system called KaleidaCare. This will allow us to improve our data collection, streamline our billing process, and ensure that best practices are being followed.
- We are currently offering two CADC (Certified Alcohol & Drug Use Counselor) classes which will allow us to have certified staff in the field of drug and alcohol use.
- Thanks to a grant from the Honorable Kentucky Colonels, we installed an exterior security system to ensure the safety and well-being of our children and staff.
- In March 2015, Holly Hill became licensed as a Behavioral Health Service Organization (BHSO) through Medicaid and also received its Alcohol & Other Drug Entity (AODE) license. We can now offer additional behavioral health services and community-based programs to individuals with substance use and mental health disorders.
- In April 2015, Holly Hill became approved as a Medicaid provider.
- Holly Hill held three major fundraisers this year: Annual Golf Classic, Marty's Party, and All Star Raffle.
- Our computer system received an upgrade, networking all computers at both locations under one system.

# HOW YOU CAN HELP

## HOW YOU CAN HELP HOLLY HILL CHILDREN'S SERVICES

VOLUNTEERS FROM 7 HILLS CHURCH

VOLUNTEERS FROM ETHICON ENDO-SURGERY, INC.

### PLANNED GIVING AND BEQUESTS:

Create your legacy by becoming a member of Holly Hill's Legacy Circle. Options available can offer numerous tax benefits for the donor or the donor's heirs. Examples include gifts of real property, life insurance, retirement plans, gift annuities, trusts, or by remembering us in your will. The following basic bequest language is suggested: "I give, devise, and bequeath to Holly Hill Children's Home in California, KY [insert written amount, percentage of your estate, description of property, etc.] to be used for its general purposes and benefit." Through estate planning provisions, you can leave a lasting legacy to support Holly Hill and the children and families of NKY. If you would be so kind as to notify us of your gift, we would like to include you on our list of Legacy donors. Consult your attorney, accountant, or financial planner to discuss the best options for you.

### DONATE ON-LINE:

Holly Hill now gives you the option to donate online using a credit card or check. Visit our website at [www.hollyhill-ky.org](http://www.hollyhill-ky.org) and click the DONATE NOW button. You can also register for Holly Hill events through the website.

### GIFTS IN KIND:

Holly Hill is often in need of donations such as personal care items, school and craft supplies, clothing and sporting equipment. Please contact us at 859-635-0500 to arrange pick-up or drop-off.

### MEMORIALS AND TRIBUTES:

Donations may be made in memory of a loved one or to commemorate a special occasion. This is a wonderful way to recognize someone special who has touched your life in a meaningful way.

### EVENT PARTNERSHIPS:

We hold several special events annually and count on local corporate support. Yearly events include our annual Golf Classic held each May and a fundraising party in August.

### VOLUNTEER SERVICES:

Each year hundreds of volunteers and volunteer groups from local businesses donate their time and talents. Consider helping us with a beautification project, a special event, or plan an activity with the children.

# MIKE'S STORY

Mike was in and out of residential treatment placements and hospitals. His temperament was so severe that his single mother did not want him at home because she didn't trust him to be around his younger brother. She felt that he had turned out just like his father who was in prison. As he left his latest placement to return home, he was admitted into the Holly Hill's Therapy program where he received a Case Manager and a Therapist. For the first time his mother reported that she felt truly supported in parenting her son. Weekly in-home therapy helped her increase her skills in parenting Mike. He had really connected to his therapist. He used to refuse to go to therapy at an in-office setting and she

couldn't even get him in the car to go. Now, even if he had a bad day at school or at home he still attends therapy. He is now able to talk out his problems instead of acting them out. He now has a chance to stay in his home and community which makes him and his mother happy. Mike's mother reports she is very pleased to have a better relationship with her son.
